Greetings:

Thank you for your interest in the Sibley County Fair and our Premium Book!

We wanted to remind you that there are changes from year to year, including our Premium Book. In 2026, we are starting the transition from print to online. Only a fraction of the normal amount of Premium Books will be printed, but you can access everything on our website (www.sibleycountyfair.com) at any time, and that will allow us to make last minute changes to schedules if need be. And, you are still able to print the book, OR, just print the page(s) you need to, helping save a tree in the process. Pocket schedules will take the place of the Premium Book, still providing you with pertinent information regarding the Sibley County Fair.

There has been much planning and preparing everything behind the scenes to make this the Best Little Fair in Minnesota! You will see there is a lot to offer in these five days, and we hope you are able to find plenty to see and do. As always, if you have suggestions or would like to get involved in some capacity, please visit with a Fair Board member.

We hope to see you at the Sibley County Fair July 29 - August 2, 2026 in Arlington, MN.

GENERAL RULES AND REGULATIONS

EXHIBITORS

1. Rules and regulations will be strictly enforced
2. No exhibitors shall be allowed to make more than two entries in any one lot
3. All Livestock Entres must be entered by July 19th, 2026, either by mail or online.

EXHIBITS

4. Dairy-Goats-Sheep-Beef. 4-H livestock may be entered in open class. An additional open class entry fee must be paid.
5. Entries for premiums in the individual lots of grain, field seed, fruit, and forage shall not be permitted to appear as parts of collections.

6. No article or animal shall compete for more than one premium except livestock competing in teams or groups. This rule shall not apply to sweepstakes, or special premium competition for which no entry is required.
7. Stock and articles must be entered in the name of the bonafide owners, and grain, vegetables, fruit, dairy products, and domestic manufactures must have been raised or made by the exhibitors thereof during the past year.
8. Every article in competition must correspond in number and description with the premium list, and be in its proper class in order to obtain premiums. No change or alterations will be permitted after the books are placed in the hands of the judges.
9. All entries except in trials of speed or livestock must be made on or before the first day of the Fair (subject to local conditions).
10. No article or animal shall be assigned a place on the grounds until entry shall have been made.
11. Each entry tag shall be securely attached to entry itself, or the stall, pen, or receptacle in which it is shown.
12. All entries are to remain on exhibit until 6:00 p.m. on the last day of the fair, unless permission to remove earlier is given by the Secretary, subject to local conditions.
13. No article or animal on exhibition will permitted to be taken away before the close of the Fair, under penalty of the forfeiture of the premium, except by permission of the superintendent of the division in which it is exhibited.
14. Exhibition of articles not competing for premiums must be arranged for at the Secretary's Office and will be arranged as far as possible in conformity with the wishes of the exhibitor.
15. Ample accommodations will be provided for all collections. No collection will be allowed which is not neatly arranged and fully labeled.
16. Those in charge of different divisions shall conveniently group each lot in the various classes.
17. The Association will take every precaution in its power for the preservation of articles and stock on exhibition, but cannot be responsible for any loss or damage that may occur in the delivery, exhibition or removal of the exhibits.

AWARDS

18. The Superintendent of the Division or some other person appointed shall assist the awarding committee as clerk and shall keep a record of the awards made. The record, when completed, shall be delivered to the Secretary.
19. The awards on entries shall be designated by ribbons or tags as follows: First Premium; Second Premium; Third Premium; Champion; Sweepstakes.
20. All awards shall be made by comparison of the individual merits of the entries.
21. No appeal from the decision of the awarding committee shall be allowed. Any exhibitor may make protest to the superintendent of the division at the time of the award, who may then require the judge to give reasons for such placing.
22. No judge shall award any discretionary premiums. Whenever articles of superior merit are exhibited for which no premiums have been offered the judges may enter the same as "commended" on the book of awards so that the Secretary may report the same to the board for future action.
23. Premiums will not be awarded on articles or animals of inferior merit, regardless of the number in competition for a premium. The judges may award on premium, second or first premium, as merit may warrant, stating the reasons in writing when requested.
24. Where a sum of money is to be paid our pro rata, the apportionments shall be according to the merits of the individual exhibits.
25. Special premiums may be issued by interested persons for entries which conform to the general classifications of the Fair Association.
26. Anyone wishing to do so may make entry in any class,

- without competing for a prize. Such entry may be marked with the owners name and address. No entry fee will be charged.
27. Where there is no competition and the article exhibited is worthy of first premium, under the judge's ruling, first premium then shall be awarded and the second money paid, except as otherwise provided in livestock and poultry departments.
 28. The Sibley County Agricultural association reserves the right to make such reductions in premium awards of the Fair as general conditions at the time the premiums are payable may justify.

Harvesting and Preparing Vegetable for Exhibit

Preparation and Handling Tips When preparing vegetables for exhibit there are many important guidelines for best displays. Some of the criteria that judges will use to evaluate your exhibits are cleanliness, blemish-free, freshness, prime condition, uniformity, true-to-type, and labeling. Vegetables are typically exhibited on white paper plates. Check fair book for specific show guidelines.

Harvesting: Always use a sharp knife to make clean, straight cuts when harvesting or trimming vegetables. Do not pull fruits from the vine. This may result in a jagged tear on the stem. Vegetables should be fresh and in prime condition for eating at the time of judging. Harvest and prepare vegetables (except onions and sweet potatoes) as close to the exhibition date as possible to prevent wilting and shriveling. If vegetables must be harvested a day or so before the fair, store them in plastic bags in the refrigerator. The size of vegetables on exhibit should be typical of the crop and variety. Remember, the biggest doesn't always mean the best. Uniformity must be considered when two or more specimens are required for an exhibit. A good vegetable exhibit is uniform in size, shape, color, maturity, and type. All vegetables should be true-to-type, that is, typical of the crop and variety being exhibited. For example, cucumbers with curled ends are not true-to type, nor is an elongated beet typical of the variety 'Detroit Dark Red'. All fruits and vegetables on exhibit must be free of blemishes that may be caused by insects, diseases, and mechanical injury. Damage caused by rough treatment during harvest or transportation downgrades an exhibit. For example, it is not desirable to display root crops that have been injured while digging or to show squash with torn off stems. Pack vegetables carefully in cloth or paper when transporting them to the fair.

Cleaning: Clean vegetables are another important criteria for judging. Dirt detracts from the appearance of the vegetables. However, it is not always advisable to clean vegetables by washing. Root crops, such as potatoes, that have been washed and scrubbed will wilt and shrivel after only a short time on display. Generally, less soil adheres to root vegetables if they are dug when the soil is relatively dry. If washing is necessary, soak roots in cool water, and gently wash with a stream of water or soft cloth. Never scrub with a hard-bristled brush. Tender skinned vegetables, such as summer squash and eggplant, must not be washed. Clean them by lightly brushing the dirt away with a soft bristled paint brush.

**Beans (lima):**
Best stage of maturity—Full size for variety, bright green, tender, fresh. Faults—Wilted, immature, variable color, rusted, or insect damaged pods. Preparation—Pick before seeds reach full size. Seed color changes from dark green to light green and they become starchier as they approach maturity

**Beans (snap)**
Best state of maturity—Uniform in color and size, straight, true to variety, small seeds, not more than half grown. Faults—Cracked pods, variable color, seeds too large; disease, insect or mechanical injury. Preparation—Brush with soft-bristled brush or soft dry cloth to remove dirt; leave 1/4 to 1/2 inch of stem on pod.

**Beets**
Best stage of maturity—Smooth, firm, and uniform in color; 1 1/2 to 3 inches in diameter.

Faults—Variable color, misshapen, rough or broken skin, oversized, insect or disease damage. Preparation—Trim tops to 1 1/2 to 2 inches in length (helps reduce wilting); leave up to 2 inches of tap root; brush to remove soil, or soak and gently wash in cold water; do not scrub because skin will break

**Broccoli**
Best stage of maturity—Firm heads, uniform color, tender and crisp, tight bud stage. Faults—Wilted, leaves in head, flowers open or showing yellow, depressed center, insect or disease damage. Preparation—Rinse with cold water; keep refrigerated until ready to exhibit; remove all leaves below the head; minimum diameter of head (or sprouts) is 3 inches; mini-mum length of stalk and head is 5 inches.

**Cabbage**
Best stage of maturity—Heads solid and firm, tender and crisp, heavy for size. Faults—Light weight, loosely formed, not firm, wilted, split; insect, disease, or mechanical damage; peeled too much. Preparation—Do not peel excessively; two or three outer leaves should be left on; trim stem close to head but leave no more than 1/2 inch of stem.

**Carrots**
Best stage of maturity—Smooth, straight, uniform bright color, 1 to 1 1/2 inches in diameter at crown. Faults—Purple or green shoulders, too large or small, pale color, forked, crooked or cracked roots, insect or disease damage. Preparation—Trim tops to 1 to 1 1/2 inches in length; remove soil by brushing or wash in cold water. Do not scrub because skin will break.

**Cauliflower**
Best stage of maturity—White, orange (yellow) or purple (depending on cultivar), crisp and solid, "jacket" leaves fresh and with uniform color. Faults—Poor color (yellow-brownish), grainy, excessively rough, wilted, insect or disease damage. Preparation—Trim "jacket" leaves even with top of head; some of the older leaves may be removed. Leave 1/4 to 1/2 inch of stem below bottom leaves.

**Celery**
Best stage of maturity—Crisp, firm, thick, and uniform petioles (stalks); uniform color for type. Faults—Wilted, small size stalks, blemishes, split stalks, poor color for type; insect, disease, or mechanical injury. Preparation—Trim leaves uniformly and remove roots; wash in cold water and refrigerate until ready to exhibit.

**Corn (sweet)**
Best stage of maturity—Kernels fully grown and in milk stage; well filled, good color, and even rows; fresh, bright green husks. Faults—Too immature or over mature; crooked, uneven rows; cob not filled to tip; insect damage; dried husks. Preparation—Remove husk from one side of ear (corn deteriorates rapidly if entire husk is removed); trim silk to within 1 inch of tip of husk; trim shank (stem holding ear) to butt (bottom end of ear).

**Cucumbers**
Best stage of maturity—Straight, dark green color; crisp and firm. Faults—Misshapen or crooked fruit, insect or mechanical damage, oversized, yellowish color, over mature, no stem. Preparation—Leave 1/2 inch of stems; wipe clean with soft cloth.

**Dill**

Best stage of maturity—Light green with mature seed; ready to use. Faults—Immaturity, small size Preparation—Cut seed heads with

10- to 12-inch stems.

**Eggplant**

Best stage of maturity—Firm, shiny; medium to large size; uniform color (purple, green, orange, white, or bicolor); light thumb pressure

will leave a dent at the proper harvest stage; small blossom scar; fresh green calyx (the leaf-like cover of the flower and the eggplant). Faults—Too small, off color for type, dried calyx, dull color, immature. Preparation—Do not wash; wipe with soft cloth if necessary; leave 1-inch stem.

**Garlic**

Best stage of maturity—Clean, smooth, brightly colored bulbs with dry necks. Faults—Rough, off-colored bulbs; necks green and immature;

missing or broken sheaths or cloves; blemished; roots or tops too closely cut. Preparation—Leave 1 inch of stem attached; trim roots to within 1/4 inch of bulb; brush off soil; do not remove sheath; do not wash. Exhibit three specimens

**Herbs (See also Dill)**

Best stage of maturity—Fresh, clean, proper harvest stage for use. Faults—Dirty, wilted foliage; flowering or improper stage for kitchen

use; improperly labeled. Preparation—Rinse in cold water.

**Kale**

Best stage of maturity—Dark green, crisp fresh leaves; bright, clean stems. Faults—

Insect damage to leaves; dirty, wilted, poorly colored leaves; seed stalk present 10. Preparation—Remove discolored outer leaves; place roots in jar of water.

**Kohlrabi**

Best stage of maturity—1 1/2 to 3 inches in diameter, tender, good color. Faults—Too

large, tough, poor color, misshapen, dirty; insect, disease, or weather damage. Preparation—Cut leaves 1 to 2 inches in length; trim roots 1 to 2 inches below "ball."

**Lettuce, leaf**

Best stage of maturity—Fresh, crisp, well-colored leaves. Faults—Leaves are wilted, yellow, damaged, or dirty. Preparation—

Remove older outer leaves that show yellowing, place roots in jar of water.

**Muskmelon**

Best stage of maturity—Pick at full maturity when stem separates readily and completely from fruit (full-slip); medium size and fragrant.

Faults—Harvested too soon (half-slip), poorly colored, decay spots, pest or mechanical damage, over- or under-ripe. Preparation—Do not wash; use soft-bristled brush to clean.

**Onions (dry)**

Best stage of maturity—Firm, mature, well-shaped bulbs; true to variety; small neck that is well dried; heavy for size; 2 inches or more

in diameter; uniform color and finish. Faults—Peeled bulb; sun scalded, immature, misshapen, double or split bulbs; large soft neck; poor color, size, and finish; disease, insect, or mechanical injury. Preparation—Harvest early (approximately 2 weeks before exhibiting) and cure thoroughly; do not remove outer scales; do not wash; trim tops 1 inch above bulb; trim roots to

1/4 inch.

**Onions (green)**

Best stage of maturity—1/2 to 3/4 inch in diameter, straight, white stem and dark green leaves. Faults—Too small or too large,

crooked, poor color, dry or discolored leaves, heavily peeled, enlarged bulbs. Preparation—Remove loose skin, cut tops 4 to 5 inches above white shank; trim roots to 1/2 inch.

**Peas (edible pod)**

Best stage of maturity—Tender, flat pods with seed just beginning to form, bright green color. Faults—Seed maturing, pods swelled or

damaged, pods tough. Preparation—Pick with stems; use soft-bristled brush to remove soil

**Peas (unshelled)**

Best stage of maturity—Bright green, well-filled pods with seeds in eating stage. Faults—

Poorly filled pods, dull or whitish green color, pods shriveled or drying, blemished; seeds shriveled, starchy, or bitter. Preparation—Pick with stem, rinse with cool water to clean.

**Pepper (bell)**

Best stage of maturity—Large, firm, blocky with dark color (red, yellow, green, orange, purple); large for variety, crisp and heavy,

uniform in size and color. Faults—Badly misshapen, rough, too small, off color, wilted, lightweight, dirty; show signs of sunscald, mechanical injury, insect, or disease damage. Preparation—Leave 1/2 to 1 inch of stems attached.

**Pepper (hot)**

Best stage of maturity—Firm, with dark color (red, green, yellow, orange, or purple); crisp and uniform in size and color. Faults—Badly

misshapen, rough, too small, off color, wilted, lightweight, dirty; show signs of sunscald, mechanical injury, insect, or disease damage. Preparation—Leave 1/2 to 1 inch of stems attached.

**Potatoes**

Best stage of maturity—Firm, medium size (6 to 10 ounces), uniform color. Faults—

Mechanical, insect, or disease damage; unusually deep eyes for variety; poor color, green color, hollow heart, knobby, or growth cracks. Preparation—Do not wash; dig from dry soil and use soft-bristled brush or soft cloth to remove soil

**Pumpkin**

Best stage of maturity—Thick flesh (heavy for size); clean, hard rind; true to type in size, shape, and color. Faults—Light weight for

size, stem removed, color and shape not typical of variety, scars and blemishes, insect or disease damage. Preparation—Leave 2 inches of stem attached; wipe and polish with a soft cloth.

**Radishes**

Best stage of maturity—Roots are 1 to 1 1/2 inches in diameter; fresh, crisp, uniform color, and smooth. Faults—Wilted or soft

roots, poorly colored, rough, or blemished; oversized or split. Preparation—Gently wash in cool water; remove only the discolored or injured leaves.

**Rhubarb**

Best stage of maturity—Young, tender stalks, uniform color, approximately 1 inch in diameter.

Faults—Tough, blemished, over mature, poorly colored stalks; lower end of stalks cut. Preparation—Pull, do not cut stalks; trim leaves so only 1 inch of leaf blade remains attached to stalk.

Spinach

Best stage of maturity—Uniformly colored, clean, fresh, crisp leaves. Faults—Wilted, poorly colored, blemished, insect-damaged leaves. Preparation—Wash in cold water; pull entire plant, trim off roots to crown, remove outer damaged leaves; place in jar of water to prevent wilting.

Squash (summer)

Best stage of maturity—Rind should be soft; long-fruited varieties (zucchini-type) should be 4 to 8 inches in length; flat or scalloped types should be 3 to 5 inches in diameter. Faults—Stem removed; large, over mature or oversized fruits; scarred skins, wilted or soft fruit. Preparation—Leave 1 to 2 inches of stem attached; do not wash; use soft-bristled brush to clean.

Tomatoes

Best stage of maturity—Firm fruits that are heavy in relation to size, typical of variety, uniform in size and color, ripe, smooth and well-shaped. Faults—Poor color, green shoulders, sunscald, too large or too small, misshapen, insect or disease damage, cracked fruit, stems left attached; over-ripe fruit are likely to be soft and “leaky”. Preparation—Pick mature but firm fruits; remove stems; clean with soft cloth.

Turnips

Best stage of maturity—Roots 2 to 3 inches in diameter, smooth skin and firm flesh, uniform color. Faults—Poorly colored, soft, spongy, too large, rough skin, excessively dirty, side roots present; show evidence of insect, disease, or mechanical injury. Preparation—Leave 1 to 2 inches of tops; leave at least 2 inches of tap root; soak and wash in cold water; do not scrub.

Watermelon

Best stage of maturity—Ground spot shows yellowish background color, dull gloss, in best eating stage, medium to large size, shape and color typical of variety. Faults—Immature or over-ripe, poor color, misshapen, blemished. Preparation—Leave 1 to 2 inch stem; wipe with moist cloth.

DEPARTMENT 8 - HORTICULTURE

Entry Day will be from 9 a.m. to 6 p.m. on first day of Fair. No entries will be accepted after 6 p.m.

A champion & reserve champion ribbon, with premiums of \$5.00 & \$3.00, may be awarded in each class to outstanding exhibits.

In order to qualify for prizes all entries must be checked out with the superintendent before removed from premises. Exhibits will be released at 6:00 p.m. on the last day of the fair. Must be removed by 9 p.m. in the horticulture and fine arts building as the doors will be locked, exhibits removed before 6:00 p.m. will result in forfeiture of premiums.

1. Exhibitors, please read the general rules of the fair on the rules and regulations page.

2. No more than one plate of any variety will be allowed in any collection competing for a premium nor shall there be synonymous entries. Any exhibitor violating this clause shall forfeit the premium money for this lot.

3. All fruits and vegetables must be shown in uniform open receptacles of the proper size to contain the sample. Shortage in count or measure will disqualify a sample from competing.

4. The Superintendent will provide uniform label cards and see that they are properly attached to all fruit and vegetable entries.

5. The exhibitor must keep his entries in tidy condition during the time that they are on exhibit. Specimens may be added to any sample except while judging is in process on the lot, to replace those which have deteriorated. The superintendent will see that any manifestly, unsightly or unfit samples are removed.

6. All varieties of fruits shall compete by variety.

7. Size, color, shape, quality, uniformity and conformity to a desirable type for the variety are the basis for judging. Select specimens normal and uniform as to size, color and quality.

8. All exhibits must be correctly labeled according to variety.

Superintendent: Stacy Hagenmiller

1. Exhibits must be in place by 6 p.m. on Entry Day and remain in place until 6:00 p.m. on closing day. All Entries must be checked out with superintendent before removal from premises.
 2. An exhibitor may make as many entries as they wish in each class but only one exhibit in each lot.
 3. If an entry is unworthy, no prize will be awarded even though it may be the only entry.
 4. Exhibitors must provide their own container.
 5. The Fair Board will not be responsible for injury to exhibits or loss of containers.
 6. A Champion & Reserve Champion Ribbon, with premiums of \$5.00 & \$3.00, may be awarded in each class to outstanding exhibits.
 7. Whenever possible, provide name of the variety exhibited.
- Suggestions: Good size of bloom and uniformity for the variety are points judges consider. In addition, good color, form of blossom, clean foliage, a strong long stem and freshness are considerations.

CLASS 1 - CUT FLOWER SPECIMENS

In this class the flower, stem and foliage are judged. The container will not be considered. Bottles and jars may be used as well as vases, however, choose a container suitable to displaying your exhibits to the best advantage.

Have the exact number of stems or blooms stipulated. There should be no foliage below the water line.

A bud showing color is counted as a bloom.

All cut flower specimens must be identified prior to entry. Superintendent will not identify.

ENTRY DAY
Wednesday, July 29, 2026
9:00 a.m. - 6:00 p.m.

Thank you!

The Sibley County Fair is an event that showcases the best of Sibley County. A place where fairgoers can come socialize with friends and family, a place where 4-Her's and open class exhibitors showcase their hard work and talents. The Sibley County Fair Board strives to make the fair fun, safe and memorable for all who attend.

We would like to thank everyone for your continued support. We thank our sponsors who, each year, help make the fair such a great event and we encourage everyone to continue to support and shop our great local businesses.

We would also like to thank our volunteers, exhibitors, vendors, entertainers, and all who attend, for helping to make it such a great event.

**Thank you for helping us make the Sibley County Fair
the "Best Little Fair in Minnesota!"**

Chocolate Chip Cookies

- | | |
|-----------------------------------|-----------------------------------|
| 2 ¼ cups all-purpose flour | ¾ cup Packed Brown Sugar |
| 1 tsp Baking Soda | 1 tsp Vanilla Extract |
| 1 tsp Salt | 2 large Eggs |
| 1 cup (2 sticks) Butter, softened | 2 cups Semi-Sweet Chocolate Chips |
| ¾ cup Granulated Sugar | |

Preheat oven to 375 degrees. Combine flour, baking soda, and salt in a small bowl. Beat butter, granulated sugar, brown sugar, and vanilla extract in a large mixer bowl until creamy. Add eggs one at a time, beating well after each addition. Gradually mix in flour mixture. Stir in Chocolate Chips. Drop by rounded tablespoon onto ungreased baking sheet. Bake for 9-11 minutes or until golden brown. Cool on baking sheet for 2 minutes; remove to wire racks to cool completely.

Bring entry to the Horticulture Building on Wednesday, July 29th between 9 a.m.-6 p.m.

Prepare the Chocolate Chip Cookie recipe exactly as printed above (no additions or substitutions). Enter four (4) Cookies on a disposable plate.

TIDBITS ABOUT THE SIBLEY COUNTY FAIR

A view of the Sibley County Fairgrounds in 1956.

Throughout Sibley County Fair's history, it has featured dairy herd competitions, greased-pig catching competitions, carnival rides, and grandstand events such as stock-car racing.

Entertainment features have included Miss Henderson and Her Performing Dogs, DeWaldo Balancing Act, Rita Rose Dance Troupe, Golden Troubadours, Blue Ridge Mountain Girls, and Kitty Wells.

Around 1909, the fair featured Ferris wheel rides on Arlington's Main Street and rides cost 10 cents.

Parades once were an important part of the fairs for many years.

Sibley County's last three-day fair was Sept. 19-21, 1912. It's first four-day fair was Sept. 20-24, 1913.

Four-thousand people attended the 50th annual fair that opened Sept. 25, 1919.

Fair highlights were a pig-feeding contest, poultry-raising contest, and canning contests for boys and girls who lived in the county.

Permanent structures for various fair exhibits were built about a 100 years ago. Plans were announced in 1915 for a school exhibit building and in 1917,

a poultry building was constructed.

In July 1919, a \$3,500 pavilion was approved for the grounds. Hog barns were constructed around 1920 and in 1942.

In 1942, the fair was canceled in response to a war-effort order from the director of transportation calling for Americans to conserve tires and rubber. A one-day 4-H club event was offered as an alternative to the fair that year.

The fair's old grandstand was replaced in the 1940s by the 1,200-capacity structure that's still in use today.

A new exhibit building and a horse barn were added in the mid-1950s. The fair's poultry barn and American Legion building both were built in 1964.

When the fair recognized its 100th anniversary in 1953, its older attendees were treated to free entry passes, grandstand admission, and a dinner.

In 2000, the fair was extended to a five-day event.

The Heritage Building on the fairgrounds was completed in 2013.

July 31 through August 4, 2019 marked the fair's 150th anniversary celebration which featured the 9/11 Never Forget Mobile Exhibit. The following year, in 2020, the fair was canceled, along with most everything else, due to COVID.
